The curriculum for the proposed Master of Science in Nursing – Family Nurse Practitioner track is designed to prepare students for collaborative and independent primary care advanced nursing practice. The curriculum is designed around AACNs (2021) *The Essentials: Core Competencies for Professional Nursing Education* focusing on the Advanced-Level Nursing Education and the level 2 sub-competencies that build on the entry-to-practice level 1 sub-competencies. This program will prepare graduates for practice and certification in an advanced nursing practice specialty, specifically the primary care Family Nurse Practitioner. The program focuses on specialty knowledge, attitudes, and skills required for advanced nursing practice roles within the healthcare system

The curriculum includes clinical practice that allows students to develop the knowledge attitudes, and skills required for advanced nursing practice. Students will complete 750 hours of clinical with a qualified preceptor. Students will be required to meet the Level 2 sub-competencies as stated in the AACN (2021) *The Essentials: Core Competencies for Professional Nursing Education*.

VIII. Virginia Needs. Briefly indicate state needs for the degree program. (max. 250 words)

Lack of Equity in Advanced Nursing Education

Access to the Virginia Higher Education System is based on location. There are no public Graduate Nursing Education programs in Southwest Virginia. Radford University is the closest state school that offers an MSN with a Nurse Practitioner Track. This is over 100 for most residents of southwest Virginia. There are only 3 institutions in western Virginia, Bluefield College, Emory & Henry College, and UVA Wise, that offer Nursing degrees and of those only Bluefield College offers an MSN-Family Nurse Practitioner Program.

UVA WISE Commitment to the Region

The mission of the college UVA Wise partners with organizations to develop strategies for health and wellness, economic growth and job opportunities. The lack of a public graduate nursing program does not allow us to fulfill our mission in helping to improve the economic growth and population health in our area of the Appalachian Highlands.

Student Demand

In a survey conducted in July of 2022 by the UVA Wise Nursing Marketing Team, over 91% of the 64 respondents indicated it was extremely important or very important for UVA Wise to offer an MSN-FNP program and 56% reported that they would enroll in the program.
